

MISSING ALERT

be active – be aware – be human

Missing Alert is a mobile app for tracking missing people.

It helps dealing with alerts immediately, through mobile technology.

Our vision is to make it a global best practice, and build a community of awareness.

How does it work?..in simple steps

Download the app
Become a volunteer

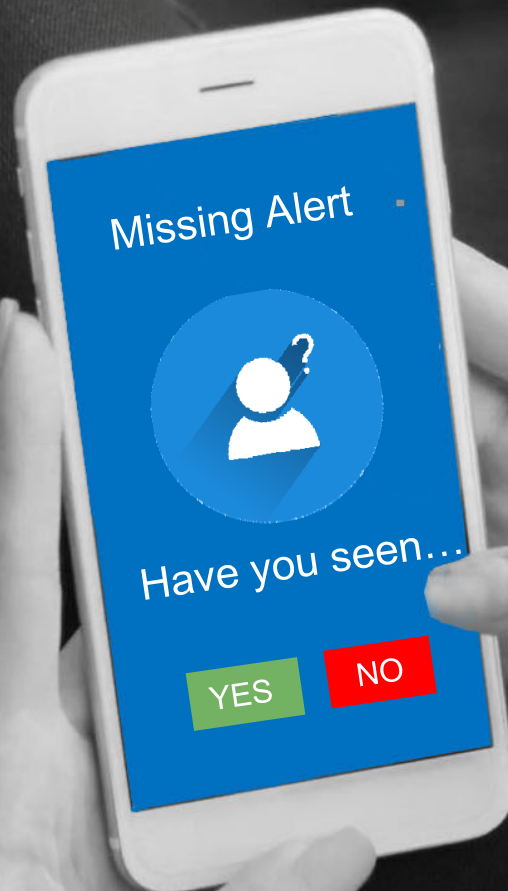

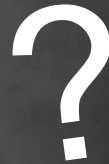

Receive alerts

Send messages

Receive notifications

3 types of Users :

- **Volunteers**

All users are volunteers.

Volunteers search people who are missing.

They can be very engaged and active or searching occasionally.

- **Tenders**

Users that protect a member.

In case the member is lost, they raise an alert request.

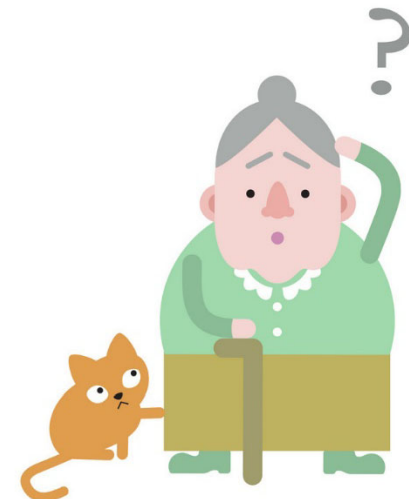

- **Admin**

Verify tender profiles

Verify and publicize the alerts (flags).

Send notifications and manage the volunteers.

dementia

Highlights

Summary: what we gain

- 01 **NO SPAM** - Only targeted notifications
- 02 **More Personal Info** - Build up trust
- 03 **Online Tracking** - Better coordination
- 04 **Online Chatting** - Better communication
- 05 **Real Time Info** - Always Up to date

App Features

Volunteers

- Register via social media/email.
- Create/Edit a profile.
- Chat with admin (text).
- View active flags (alerts) displayed in list, sorted by location.
- Receive notifications for each flag (alert) at 2km distance.
- Follow/unfollow flags (alerts) in order to activate or pause notifications.
- View timeline with real time information for each flag (alert).

Tenders

Volunteers with permission to protect one member:

- Register as a Tender
- Register protected member
- Display/Edit protected member's information
